Web Developer

*Reports to: Manager, Interactive Development
Oakville, ON*

The Web Developer is an important member of a team that integrates and builds interactive websites, web applications and services for both internal and external consumption. The Web Developer has experience fuelling the Web with dynamic program tools, and out-of-the-box approaches.

The role is responsible for the implementation, maintenance, and quality control of projects related to Pelmorex Media websites, mobile websites, and other platforms as required. The role is also responsible for troubleshooting and diagnosing web-related issues as they arise.

Responsibilities:

- Implement, test, and document features that enhance interactive properties, from template/interface creation to data source and server side programming
- Develop effective and efficient interfaces between the front-end and back-end of products in cooperation with the Web Development team and Network Operations
- In cooperation with the Quality Assurance team, assist in testing, including the execution of test plans
- Work with the Network Operations and Development teams to ensure all systems function as intended, without impediment to existing products or processes
- Provide accurate and timely estimates for assigned tasks
- Perform other technical related activities as determined by the manager

Roles, responsibilities and duties may evolve and change over time.

Qualifications:

- University degree or College diploma in Computer Programming, Information Technologies or a related discipline
- 2 - 5 years related job experience in web software development
- Proficient with web programming languages including PHP, ASP.NET (C#), JavaScript, AJAX, XHTML/XML, CSS, SQL

- Experience consuming data from SOAP and REST-based web services in multiple formats including XML and JSON
- Adept in cross-browser web authoring standards, and the challenges in cross-browser compatibility
- Working and proven knowledge of Object Oriented Programming techniques and design patterns such as MVC
- Familiar with SDLC best practices and related methodologies
- Working knowledge of source control systems such as Subversion or equivalent
- Experience with HTML5 an asset
- Experience with LAMP/WAMP systems an asset
- Experience with database development (SQL Server, MySQL) an asset
- Working knowledge of Quality Assurance processes and methodologies an asset

Competencies:

- Ability to work under pressure, meet deadlines and quickly analyze a problem
- Works well as a member of a team, or individually
- Excellent oral and written communication skills
- Well-developed organization and documentation skills

Working Conditions:

Fast paced work environment with occasional requirements to work beyond the normal day. Visual concentration is extensive while working at a computer screen.

Qualified applicants should submit their resume to: *Human Resources*, Fax: 905-829-1332 or email: hr@pelmorex.com. Please quote: “**Web Developer**” in the subject line. Pelmorex is committed to equity in the workplace. We thank all applicants for their interest, but only those selected for an interview will be contacted.
